INTRODUCTION

Our journey was the answer to a simple question. What would happen if a cryptocurrency project was 100% run by its community?

As we move further away from rigid financial structures and traditional mindsets, we become free to discover new ways to solve problems and relate to one another. In a world ruled by the commodification of time, community-run projects are more than just a change of pace, they are a way to practice the radical acceptance of others.

When success depends on the shared strength of the individuals who make up a collective, we are forced to shift our perspectives to align with those around us. The Forcecoin Ecosystem is our way of recognizing the importance of tearing down this long-established paradigm.

A community is held together by hundreds, if not thousands, of interconnected moments. By studying those drawn to our project, we realized that true strength doesn't come from one of us alone, it comes from when we work together in harmony. With that thought bright in our minds, we began developing the Forcecoin Ecosystem.

CONCLUSION

The Forcecoin community started with the seed of an idea. What could happen with no centralized team, no funding, and no direct leadership? Could decentralization actually work? Could we follow the perfect storm of digital currencies, like BTC or DOGE, except perpetuate something that is fully community-driven, instead?

Now, while I do stay around and make it my mission to “defend the brand” and protect the community from leeches and scammers, the Forcecoin team has done amazing work and built the future of memecoin finance through Forcecoin.

This is the beginning of a new era for decentralized communities. When the time is right (because good things can't be rushed), Forcecoin will be the crucial point of contact between the decentralized world and global communities, allowing us to actualize our vision of widespread adoption of DeFi cryptocurrency. Again, we would like to say thank you to each and every one of you. Without your participation, none of this would be possible. It's time for us to begin.
